## ICS Hosted Installed Solution (Perpetual License) Price Sheet

**Inquisiq R3™** is a simple to use but powerful learning management system (LMS) that gives you the ability to deliver SCORM-compliant content in both public and private environments. It is a straightforward, robust solution with an intuitive interface that allows you to organize catalogs, review reports, issue certificates and sell your content using a variety of ecommerce solutions.

Inquisiq R3™ is offered in both **Software as a Service** (SaaS) as well as ICS Hosted and On Premises **Installed** (perpetual license) solutions to best meet your particular needs.

### ICS Hosted Installed Solution

An Inquisiq R3™ unlimited user perpetual license can be purchased and installed on a dedicated leased server from ICS Learning Group (see following page for server lease details). For larger user populations, this option may be more economical than the SaaS solution, especially when considering longer time periods. The ICS Hosted Installed solution provides worry free hosting by ICS Learning Group including free server maintenance and Inquisiq upgrade installations. Each license includes your ability to create 7 Perpetual LMS portals (1 full, 1 developer and 5 content resellers). Additional LMS portals are available for a nominal yearly charge. Each LMS portal is a unique standalone LMS, with its own URL, branding, users, courses, etc.
