Software as a Service (SaaS)

The Inquisiq R3™ SaaS solution allows you to completely outsource your LMS application to ICS Learning Group. It is a pay-as-you-go all inclusive solution that includes the **software, hosting, support and maintenance**. With no software to install, and no set-up fees, you can be up and running in minutes.

The SaaS solution is available in two pricing models Pick the one that fits your needs best

Pricing Option 2: User & Enrollment Based Pricing – Recognizing the needs for our content resellers who have a very limited number of courses, or organizations that need to keep the per user costs low because of limited course enrollments, we also offer a SaaS pricing model that charges less for user accounts but factors in the number of course enrollments you have. This solution may allow you to have a larger user population but with a defined number of course enrollments.

SaaS Pricing – User & Enrollment Based			
Inquisiq R3™ (cost per month)	Included User Accounts	Included Course Enrollments (per month)	Content Space (additional storage space can be purchased at only \$10/GB/Month)
\$200	0 to 200	0 to 25	500 MB
\$300	201 to 300	up to 50	750 MB
\$400	301 to 400	up to 75	1 GB
\$500	401 to 500	up to 100	1.5 GB
\$600	501 to 600	up to 125	2 GB
\$700	601 to 700	up to 150	2.5 GB
\$800	701 to 800	up to 175	3 GB
\$900	801 to 900	up to 200	3.5 GB
\$1,000	901 to 1000	up to 225	4 GB

Notes:

1. The pricing level is based on the greater of the two (number of user accounts or number of course enrollments) for any given month. For example, a system with 280 users and 20 enrollments in a month would be charged \$300 (based on the number of user accounts that month). If a system had 280 users and 100 course enrollments in a month, it would be charged \$500 (based on the number of course enrollments that month).
2. The User & Enrollment based pricing plan is limited to 1000 users and 225 monthly enrollments. Once a system has over 1000 users the pricing automatically converts to the User Account Based pricing. Accounts with under 1000 users and over 225 enrollments are charged an additional \$4 for each enrollment over 225.
3. Customers are allowed to move between the two pricing solutions provided they have been in the current pricing model for at least 6 months.

Pricing includes the ability to make an unlimited number of branded Inquisiq R3™ LMS portals under one account, although there is a minimum \$20 per month fee per LMS portal. For accounts to be combined, they must be in the same pricing model (User Based or User & Enrollment Based). Having multiple LMS portals allows you to uniquely accommodate different clients and situations. Each LMS portal includes all administrative rights and privileges.
